Professional Summary

Passionate and detail-oriented Cloud & DevOps Engineer in training with a strong background in IT support, system administration, and network management. Skilled in AWS cloud services, infrastructure automation, and CI/CD pipelines. Hands-on experience deploying and managing infrastructure using Terraform, Ansible, and AWS CloudFormation. Adept at troubleshooting, scripting, and collaborating in Agile environments. Seeking a remote DevOps Engineer role to contribute to secure, scalable, and automated solutions while continuing to grow my technical expertise.

Core Competencies

- **Cloud Platforms:** AWS (EC2, S3, IAM, VPC, CloudFormation)
 - **DevOps & Automation:** Terraform, Ansible, Jenkins, CI/CD Pipelines, Git/GitHub, Docker (basics)
 - **Operating Systems:** Linux (Ubuntu, CentOS), Windows Server
 - **Scripting & Programming:** Bash, Python (basic)
 - **Networking:** LAN/WAN setup, configuration, and troubleshooting
 - **Project Management & Collaboration:** Atlassian Suite (Jira, Confluence), Agile/Scrum
 - **Other Skills:** Technical Documentation, End-User Training, System Configuration
-

Cloud & DevOps Projects

AWS S3 Static Website Deployment – Built and hosted a static website on AWS S3 with versioning, IAM-based access control, and CloudFront integration for secure global content delivery.

Infrastructure as Code with Terraform – Designed and deployed AWS VPC, subnets, EC2 instances, and security groups using Terraform scripts for repeatable infrastructure provisioning.

Automated Server Configuration with Ansible – Configured Linux servers, installed packages, and deployed applications through automated playbooks, reducing manual setup time.

CI/CD Pipeline with Jenkins – Created a Jenkins pipeline to automate build, test, and deployment of applications to AWS EC2, improving release efficiency.
Dockerized Web Application – Containerized a sample web application using Docker and deployed to AWS EC2, enabling portability and scalability.

Professional Experience

Director – *VION Career Consult Ltd, Benin City*

2022 – Present

- Manage technical aspects of client services including secure cloud storage for business records.
- Coordinate with international partners to ensure documentation meets compliance standards.
- Oversee IT operations and implement digital tools for process efficiency.

Business Analyst – *Evergreen Feeds & Agro-Allied International*

2018 – 2022

- Collected and analyzed operational data to identify inefficiencies and implement IT-driven improvements.
- Assisted with automation of data entry processes, reducing manual workload.
- Provided technical support for business systems and database applications.

IT Support Specialist – *Owerri CBT Hi-Tech*

2016 – 2018

- Configured and maintained over 100 systems for secure cloud-based examination delivery.
- Provided technical support for Windows and Linux systems.
- Trained users in Microsoft Office Suite, administrative tools, and basic cybersecurity practices.

IT Instructor – *Public Service Training Institute, Ondo State*

2015 – 2016

- Delivered IT training to public servants on Microsoft Office, internet usage, and cybersecurity.
- Managed LAN network infrastructure and implemented secure backup solutions.

System Administrator Intern – *SIAT Nigeria Limited*
2013

- Managed LAN, performed system backups, and ensured data protection.
 - Assisted in developing a Digital Rights Management System for internal security.
-

Education & Certifications

B.Sc. Computer Science – Madonna University, Nigeria | 2014

Certifications & Training:

- AWS Certified Cloud Practitioner – in progress
- AWS Cloud Technical Essentials – Coursera
- Python for Everybody – Coursera
- Cisco Cybersecurity Essentials – Cisco Networking Academy
- Machine Learning for All – University of London (Coursera)
